Sentient Decisions LLC

“Unleash Data Power”

CAPABILITY STATEMENT

Sentient Decisions LLC is a **Small Business** that supports Federal Agencies missions in developing new, innovative ways to process, aggregate, analyze, share, and collect data to make better informed decisions.

CORE COMPETENCIES

Cloud Computing

- Cloud Migration
- Azure
- AWS
- Salesforce

IT Modernization

- Legacy System Replacement
- Automation & Integration
- Big Data and Analytics Adoption

Robotic Process Automation

- Reduce the burden of repetitive, simple tasks on Federal employees
- Free Federal employees to focus on more meaningful and analytical work

PAST PERFORMANCE / DIFFERENTIATORS

- Our company is a certified Salesforce Partner, boasting a dedicated team of Salesforce Analytics Champions and certified professionals in both Salesforce and Tableau.
- We played a pivotal role in facilitating the transition of on-premises systems to the Salesforce Cloud for the Department of Homeland Security (DHS).
- Through strategic collaboration, we partnered with Accenture Federal Services as the Prime Contractor, contributing to the successful delivery of an analytics solution designed to enhance and optimize mission-critical processes for the Transportation Security Administration (TSA).
- As a contracted partner with Salesforce Professional Services, our team executed the implementation of a sophisticated Call Center analytics and data migration solution, with the primary objective of elevating the quality of the customer experience.
- We were instrumental in supporting the seamless data migration process of the University of Texas Health Student Information System to the Salesforce Education Cloud, contributing to an improved data management system for the institution.
- Our organization, as a recognized Salesforce Talent Alliance Partner, maintains access to a rich and diverse talent pool, ensuring the highest caliber of expertise and support for our clientele.
